1. Introduction:

Currently, English is one of the most spoken languages in the world. Therefore, the learning English demand is increasing. Bilinguo is created to provide learners with several supports such as memorizing words with flashcards, looking up the meaning of words with dictionary, doing exercises and taking mock tests. Not only can the students use Bilinguo, but teachers can also design tests for their students on this app.

2. Target users and environments:

- As an English-learning application, Bilinguo aims for two main users: learners and teachers.
- Learner: Who are greater than 13 years old and want to learn English as second language. They are seeking tools to digitalize traditional learning methods.
- Teacher: Who are English language instructors or educators working in schools, language institutes, or tutoring centers. They are seeking innovative tools to enhance their teaching methods and facilitate student learning.
- Bilinguo is initially built for Windows. In the future, we intend to develop a web version. So, stay tuned!
